Tony Mason re-defines the term “One Man Band”! A singer and song writer, who traveled to Vermont by way of New York City basket houses and tours of New England in clubs and schools as well as the College Coffee House circuit, Tony gets excited with the new electronics that enable him to play all the parts – and then sing, too! It has been said of him - “His barrage of charm, skill, syncopation and exuberance completely captivates the audience.” ([See Complete Bio](#))
